without take, and deserved a monument, on the score of the drue qualities of a noble spirit in a higher degree line her pertone in trouble. Adam had a full share in the sex which lost the trace its Paradisc, be Ber has done at the good work in amelioration the less and giving as the best substitute that is possible moor the directmentances. Way not build her a mountain, as well as one to Adam?

We clip the above from a late number of the Harrisburg (Pa) Telegrapit. We confess to an en-Tire arquisscence is the views expressed, as to the regardly of erecting a monument to the first Adam, without remembering the berole conduct of the first Eve, who, as stated in the above extract acted a much pobler part than her sponse, who behaved with a posilianimity naworthy of a brave man, If we are to believe the scriptural account of the nation, fall and expulsion of the first pair from the gurden of Paradise. We must also confess to some surprise at the idea of erecting a monument to the ancientaire of the human race at this late day, and particularly away off in the State of New York, But there is no accounting for the strange freaks of people now-a-days, and especially the so-called resome considerable anxiety, the inscription to this mit from the pen of the facetions and eccenuse Mark Twain. The inscription will be some uning fining we suppose. This reminds us of an associate related of the famous biblical scholar and grantly contended she was tempted by an ape or morning, and not by a serpent as most biblical here sind commentators hold. Dr. Curk's theory med a good deal of criticism at the time, which was carried on with no little acrimony, in the jour-

wing, which put an end to the controversy: The Reversed Dr. Adam Clark asserts, it could not be a serpent tempted Eve, Dut a gay morskey whose fire minde arts And Separits, were most likely to deceive; Begtanic remnentators still hold out, it could not be a monkey tempted medam, But who shall we believe, without a doubt, San anew so well what tempted Eve, as Adam!"

In the state of the state of the civilined countries of the state of t

We learn with regret, that J. O. Carter, Esq , the able, efficient and gentlemanly Registrar of Public Accounts in the office of His Excellency, the Minister of Finance, has resigned in order to embark in another and new line of business.

Mr. Carter took possession of his present with the Einstein, on Wednesday, the 4th day of position in May 1874, as the successor of the Secretary was The following places are designated for late C. A. Castle, deceased, Mr. Carter was thus deprived of that assistance which the ex-Perience of his predecessor could have given him as to the condition of the accounts, and Burnel Edward House, Walmes, School Roose, Walmes, School Roose, Burnel Edward House, Walmes, School Roose, Walmes, Walmes, School Roose, Walmes, Walm the routine business of the department, but the right man for the place, and in a short space of time was master of the situation. Nature, education, first class business talents coupled with a high order of intelligence and as a courteous, affable gentleman, were the qualifications which Mr. Carter brought with Minister and Least Centri Bouse, Pakoo, No. | qualifications which Mr. Carter brought with of the Hawaiian Government in 1874, from and Harm allocate Hale, Honolein, at the front which he retires with honor, and the universal Walking School House, Walawa; respect of his fellow-citizens. When Mr. Carter took charge he found the finances of the Government at a low ebb, but fortunately he leaves the Treasery full to repletion. This have written as to his high qualifications as a faithful and upright public officer. We speak of Mr. Carter from our own knowledge, derived from an almost daily intercourse of upwards Blooms January 5th 1886; from which date the first of two years, and not from hearsay testimony of others. He has our best wishes for his future prosperity in whatever position he may

Tar Burning.

About thirty barrels of tar were burned on Friday evening last, in different localities in this city, under the superintendence and direction of the officers of the Board of Health, for the purpose of fumigating the atmosphere, in the hope of mitigating the malaria that has produced the prevailing fever. This simple experiment can do no harm, and may be productive of great benefit to the health of the city, and inasmuch as twenty barrels were contributed by the citizens for the occasion, the Hawaiian Treasury has not been depleted

by the experiment. The editor of the GAZETTE can well afford to be sneered at by the quid nuncs of the Advertiser for his efforts to induce action on part of the Board of Health, to do something, no to a suffering people. We are so accustomed to a suffering people. We are so accustomed to the silly conduct of the Advertiser in all public subjects, that we expect nothing else but sneers from that source. But we know we have the approval of sensible men and good citizens, and therefore, can smile with complacency at the heartlessness and theomistery of our contemporary. The inconsistency referred to is signally conspicuous wherein the Gazette is charged with unduly exciting the public mind with articles referring to the prevalence of the malarial fever in this city for months past, when almost every column of the Advertiser teems with testimony to estab-

A measured to Adam has been perfected in Elmin. See Tick, which will be seventy leet high,
and Mark Team is to write the inscription. Why a

lish the facts as stated by the GAZETTE. To
prove this, it is only necessary for the public
to read the correspondence between their Excellencies, the American Minister Resident,
and the Minister of Foreign Affairs of this government; Mr. T. G. Thrum's article; an article signed "Pro Bono Publico;" then, the letter of His Excellency, the Minister of the Interior, addressed to the editor of the Adcase in these words: "Our city having been intil lately quite free of disease being infrequent, SOME ALARM IS NATURALLY CAUSED BY THE DECRASE OF AN UNUSUAL NUMBER OF PROMINENT CITIZENS." The italice and small-caps are ours, so marked to give emphasis to the truthfulness of the admissions of the Minister of the Interior. Verily "con-sistancy thou art a jewel," but the Advertiser has not yet discovered the fact, and we are prone to believe never will.

Commendable Action.

Last week the citizens of Honolulu took action in the matter of trying to do something to mitigate the distress of the people, by voluntarily contributing their monoy to purchase a quantity of tar to be burned, and accordingly lignous part of humanity. We shall await with thirty-two barrels of that substance were procured, and burned at different points of the city, under the direction and superintendence

of the officers of the Board of Health. It will be remembered that the GAZETTE on commentator, Dr. Adam Clark, who when he came | behalf of the suffeaing people of this city, has to write his views of the temptation of mother Eve, not been mealy-mouthed in speaking of the sanitary condition of Honolulu, and in bringing to the attention of the Board of Health, the great necessity of taking such steps as prudence and a due regard for the welfare of the male and reviews of the day, which lasted for weeks people demanded, under the trying circumand mostlid, antil a wit wrote and published the stances surrounding them for the past few

The action of the citizens who so ppomptly contributed their money with a view to mitigate the severity of a dire disease, that has been decimating whole families for months past, and bringing sorrow and berevement to so many households; while it is praiseworthy The new redefines of Cuba still continues. The work of the circumstances, and with
the foregoing facts staring us in the face, that
the sounded the toosin of larm, and we repeat,
the verifice that it has not been sounded in
vain.

We are pleased to record the fact, that the
health authorities are now engaged in cleansing the streets of the city, but they should not
torget that to do this properly much more is
required to be done than merely scavengering
the surface of the streets. They should go down
to the seat of the disease, which is the filthy
seplianded and the recking cesspools, and make
r adical changes there. We are hopeful that
this will now be done insamuch as the public
have taken the matter in charge, and the
Board of Health has been compelled to act at
last.

Arrival of U. S. Gunboat Ranger.

The U. S. Gunboat Ranger, Commander, Robert Boyd, 4 guns, 125 men and 1020 tons, arrived in this port on the morning of the 19th inst. en route for San Francisco, 44 days from Yokohama, Japan. matter how little, to effect even a slight benefit The Ranger experienced some severe weather on the CONTRACTOR & BUILDER trip, following is a detailed report :

which boat, and stove in other boats, forced in iron ports on starboard side, and filled decks with water; carried away mizzon-topmant and caused mizzon-mast to break two iron beams and settle; sea also broke through wardroom skylight, doing considerable damage to ship's provisions and officers clothing. All this time the ship was rolling heavily, and it was a matter of almost impossibility to go from one portion of the vessel to the other without being warbed away. One of the men, stationed at a lie buoy, was washed overboard, but the next sea returned him inboard and he was secured. The force of the soa was prodiglous, iron davits, of from three to four inches in diameter, being broken off like pipe stems, or else twisted as if of straw. The gale lasted about 40 hours, and on account of the condition of the boats and lack of provisions it was deemed prodent to keep away for Honolulu. The lowest stage of the barometer was 38 ° 63', middight of the 28th. The damage will amount to about \$10,000. Following is damage will amount to about \$19,000. Following is

damage will amount to about \$10,000. Following is a list of her officers:

Proposed Conditions for Opening a New Port in Korea.

We find the following in the Japan Gazette of Oct. S, received per D. C. Murrey, on the 17th ulto., and as it bears upon the question of commerce, may have more or less interest to our readers. The opening of a new port by the Koreans, to the Japanese at this time, seems to indicate that the Korean's treat with little significance, inasmuch as China threatens to New and Elegant Styles dispute the right of Japan to trade with Korea. On exhibition at our Store, What the result of the pending difficulties between China and Japan regarding the Loo Choo islands Shall we send you one on trial f may be, time alone must determine, as both countries at last advices, were making preparations for a

The following is a draft of the conditions for the opening of the port of Gensan, Korea, which Mr. Hanabura is negotiating with the Korean Govern-

Art. I. From the month of March in the year Art. I. From the month of March in the year Koshin, according to the chronology of the Koreans, corresponding to the month of May in the 13th year of Meiji, according to Japanese chronology (1880), the Korean Government will open the port of Gensan, which is situate in Kankio-do, to the Japanese for trading purposes; and they shall be entitled to establish a settlement at Kotokusan, the confines of which shall be determined after a survey has been made.

which shall be determined after a surrey has been made.

Art. 2. The ground rent in the settlement shall be the same at the beginning as is paid by the usual tax. It may afterwards be increased or decreased according to mutual arrangement.

Art. 3. The Korean Government shall clear the site for the settlement of all roces, bushes and other obstructions; lavel it and construct roads and bridges but the Japanese to built houses and form streets.

Art. 4. A cometery to be granted for the use of Japanese at a convenient distance from the settlement and at the same rate of rental.

Art. 5. The Korean Government to build a pier from the west coast of Katoku-san to Katokujuma and keep the same in reasonable repair so that ships may be safely at anchor and cargo landed with dispatch: Korean vessels to be permitted to anchor in the port on payment of wharfage dues to the custom house. On a Korean wishing to go to any open port in a Japanese ship he shall make a request to that effect, give his name, state the quantity of his luggage and the custom house will then grant him permission.

Art. 6. The Korean Government shall establish a

Art. 6. The Korean Government shall establish a custom house near the pier and build a shed for the protection of goods.

Art. 7. The treaty limits should be ten ri in all directions, the same as at Fusan. Permission to be allowed Japanese to visit Tokugen for as freely as Toral fa.

N. B. As there is a place between Geneau and Kataums which Japanese will not be permitted to visit, another read will be made.

If any of the above articles require amendment such amendment shall be carried out according to the needs of the settlement.

Persons knowing themselves indebted to the Gazette office, either for subscriptions or job work, will please settle their accounts previous to the 31st of December next, as my connection with the Gazette as Editor and Publisher, will cease after that date. I am anxious to have all accounts settled with the close of the year, preparatory to leaving the Kingdom.
